Fall Clean-Up Day

Sandstone Charter Township

7940 County Farm Rd.

https://sandstonetownship.org/

October 10, 2026

Two Sessions

Session 1) 8-11 am: Sandstone Twp residents only: tires (see restrictions below), metal, general trash/junk, electronics for recycling

Session 2) 11am - 1pm: Spring Arbor Twp residents only: tires (see restrictions below)

Sandstone Township has arranged for four different collection categories this fall: metal, general junk/trash, electronics, and tires (see restrictions, below). It is very helpful to have whatever you're dropping off sorted into these categories so that our unloading helpers can get you on your way as quickly as possible; tires are usually the *first* thing unloaded (at the semi trailer), metals are next (large OmniSource bin), then junk/trash (Emmons trucks) and electronics last (truck near the building). *Note* that tire collection for Spring Arbor residents, only, *starts* at 11 am.

- OmniSource will have their large roll-off metals-only bin located at the front of our east parking lot. Appliances that contain refrigerant (air conditioners, refrigerators, freezers) are ***not*** accepted for metal recycling. A more complete description of what OmniSource will and will not accept is linked on our webpage. Metals collected by Omni are recycled.
- Emmons Service will have 2 garbage trucks available for collection of general junk/trash/garbage (garbage - degradable materials - must be bagged) – **no yard waste** (brush, leaves, grass clippings, dirt, etc.) or hazardous materials (batteries, liquids, light bulbs, etc.); a more complete list of what they will *not* accept is linked on our webpage. Materials collected by Emmons are transported to a landfill.
- Recycling Jackson will have a truck available to accept electronic devices for recycling. (Monetary donations for this local non-profit service organization are appreciated.)
- **Tire collection restrictions**: no tractor tires or semi truck tires; tires must be off rims; please empty tires of dirt and water. **Limit: 10 tires per load** (additional trips w/10 tires each are ok)

Please also note that the restrictions on what specific items or materials are acceptable for collection are determined by the above companies, not by the Township. The Township does, however, require that all items or materials (other than tires after 11am) be from Sandstone Township residences (not businesses or other non-residential sources; materials transported in a business vehicle are presumed to be business materials). If you have any questions regarding these restrictions, please call the Township Supervisor (Gary Britten) at 784-4712 ext. 1.
